Partnerstvo je angažirani, stabilan i obvezujući odnos između škole-partnera koji podrazumijeva  
dugoročnu suradnju i provedbu projekata financiranih od strane Ministarstva turizma. Ključni su za  
ovaj odnos međusobno povjerenje, otvorenost i iskrenost koje se odnose na uspjeh i realne dobne  
rezultate partnerstva koje su ostvarene u nastavnim procesima.

Ministarstva turizma u roku navedenom u Uputama za prijavu.
3. Sve Partneri se idu napred na vrijeme dostaviti Prijavitelju sve potrebne dokumente i priloge.
4. Prijavitelj i svi Partneri moraju zajednički raditi na uspjehu projekta, u okviru aktivnosti i promatranja

The project is funded by the Ministry of Tourism for the purpose of promotion and strengthening competence of professional occupations in tourism.

The main goal of the project is to raise, through mutual work, the quality of knowledge and competencies of students with disabilities.

Special emphasis was on achieving work in a team environment, developing social and communication skills, creativity and cross - sectoral networking as well as motivating young people to work in tourism (assistant chef and pastry chef, assistant waiter, assistant gardener and assistant tailor).

The project leader was Tanja Bedeković from TUPŠ Bjelovar and the leader from the partner school was Mirna Rosandić but it wouldn't be possible to achieve what we did without a great help from teachers Ljubica Kujek, Igor Grgić and our wonderful hard-working students.

The whole project went like this....

Throughout the school year, everyone practiced diligently for Project Day. Students from Bjelovar made pralines, furenjaks, strudels with cheese and apples, and in Osijek they practiced how to sew bags and backpacks as well as possible and perform beautiful Slavonian motifs on them by hand.

Diligent hands deserved the award - new portable machines that will be a greatly help teacher Kujek and her students in their further work. A camera was also purchased for both schools so that they could preserve our fond memories forever.

We each did workshops for Easter at our schools because of Covid-19, but the students still worked tirelessly and tried very hard to make everything perfect.

And that's exactly how it was.....

We also showed our fellow citizens what we know and can do .... there are announcements on our school and Facebook pages, billboards have been arranged in schools

The online workshop devised by colleagues from Bjelovar made us all very happy - we learned to work and served shakes and we learned how to set the table.

Our dear friends from Bjelovar cheered us up with their arrival - we enjoyed socializing together and new friendships were formed in an instant...

And sugar at the end; Craft school Osijek is richer by 10 sets of work clothes for assistant tailors, 5 sets for assistant chefs and confectioners and a set of wire geometric bodies for teaching mathematics and the Tourist and Catering School Bjelovar is richer for the entire range of raw materials for new delicious pralines.

Thank you!
