Specific Recommendations provided to Managing Authorities

regarding EUSAIR Pillar 1:Blue Growth

Sample text send to Managing Authorities to be added to the programmes:

«The Programme will include interventions in line with the Pillar 1 (Blue Growth) flagships of EUSAIR which are very relevant with the Blue Economy:

(1)Fostering quadruple helix ties in the fields of marine technologies and blue biotechnologies for advancing innovation, business development and business adaptation in blue bio-economy;

(2)Promoting sustainability, diversification and competitiveness in the fisheries and aquaculture sectors through education, research and development, administrative, technological and marketing actions, including the promotion of initiatives on marketing standards and healthy nutritional habits;

(3)Bolstering capacity building and efficient coordination of planning and local development activities for improving marine and maritime governance and blue growth services.»

Embedding Process towards EUSAIR 2021-2027

Embedding Process should be in line with the EUSAIR Action Plan Revision

- Harmonization with current EU policies (EU Strategic agenda 2019 2024, Green Deal + new/updated relevant sector policies)
- Transition from past to current multiannual financial framework (integration of flagships)
- New countries joining EUSAIR (accomodation of their needs, role in Strategy)
- Facing emerging global challenges (COVID, migration, Ukraine, energy, supply chain crises)
- Addressing governance challenges/gaps (towards more focused and implementation oriented approach) - New Facility Point
