- Workshop for elementary school pupils from Vrgorac, Staševica and Otrić - Seoci
- Introducing students to the skill of arranging platters, prosciutto and other cured meat products
- Introducing students to vocational skills that are one of the foundations of the excellent tourist offer of our region

# "Zero waste" workshop

- Demonstration method – how to use the whole prosciutto to prepare various dishes, without residue and throwing away

# Making a presentation on wine analysis

- Physico-chemical analysis of wine
- Determination of total acids
- Determination of the alcohol content of wine
- Wine evaluation – appearance, smell, taste

[Wine analysis – Technical School in Imotski](#)

# Festival of Skills – Day of Dalmatian Prosciutto and Wine

- In the beautiful space of the city park in Vrgorac, the final activity of the project was held
- Students of our school and the partner schools of the Technical School in Imotski and the Crafts and Industrial School in Imotski presented their skills (cutting prosciutto, arranging and presenting plates, serving wine) in front of numerous guests (employers in tourism, representatives of associated partners of the City of Vrgorac and the Vrgorac Tourist Board, teachers, members of the local community)
- Elementary school pupils (accompanied by their parents) were able to get acquainted with different vocational skills
- On the video wall, a presentation about wines was shown, made by students of the Technical School in Imotski. Two interactive maps created as part of the project with the aim of promoting the tourist offer were also presented: a map of wineries in the Vrgorac and Imotski regions and a map of prosciutto produced by Dalmatian prosciutto
