## METODOLOŠKA OBJAŠNJENJA

### Svrha statističkog istraživanja

Svrha statističkog istraživanja Turistička aktivnost stanovništva Republike Hrvatske jest prikupiti podatke o nacionalnom turizmu, tj. podatke o broju i obilježjima putovanja stanovništva Hrvatske izvan uobičajene sredine. Cilj je procijeniti koliko putuju stanovnici Hrvatske, zašto odlaze na putovanja, gdje i kada odlaze na putovanja, koliko traju putovanja te koliki su izdaci na putovanjima. Za ispitanike koji nisu odlazili na privatna višednevna putovanja prikupljaju se podaci o glavnim razlozima neodlaska na putovanja.

U ovom priopćenju prikazuju se glavni rezultati istraživanja te metode provođenja. U pojedinim tablicama ukupni zbroj ne odgovara zbroju pojedinačnih podataka zbog zaokruživanja.

### Pravna i metodološka osnova

Istraživanje se provodi prema Godišnjemu provedbenom planu statističkih aktivnosti Republike Hrvatske za 2015. godinu (NN, br. 21/15.) i prema Uredbi EU br. 692/2011. Europskog parlamenta i Vijeća o europskoj statistici turizma.

## NOTES ON METHODOLOGY

### The purpose of the statistical survey

The purpose of the statistical research Tourist Activity of the Population of the Republic of Croatia is to gather data on national tourism, that is, the data on the number and characteristics of travels of the Croatian population outside their usual environment. The goal is to assess to what extent does the Croatian population travel, their reasons for going on a trip, where and when they travel, how long do the trips last and what the trip expenditures amount to. For the surveyed persons who did not go on a private trip with overnight stays, the data on the reasons for not going on a trip were gathered.

This first release presents the main research results and the methods according to which the research was carried out. In individual tables the total sum does not equal the sum of individual figures due to the rounding of the figures.

### Legal basis

The research is carried out according to the Annual Implementation Plan of Statistical Activities of the Republic of Croatia for 2015 (NN, No. 21/15) and the EU Regulation No. 692/2011 of the European parliament and the Council on European tourism statistics.

## Povjerljivost

Prema Zakonu o službenoj statistici (NN, br. 103/03., 75/09., 59/12. i 12/13. – pročišćeni tekst) i Uredbi EU br. 223/2009. o europskim statistikama zajamčena je tajnost svih podataka koje ispitnici daju o sebi i članovima svoga kućanstva. Prikupljeni podaci upotrebljavaju se isključivo za statističke svrhe i objavljaju u agregiranom obliku.

## Jedinice promatranja

Jedinica promatranja za broj osoba koje su bile na putovanju jest stanovnik Hrvatske u dobi od 15 i više godina. Jedinica promatranja za podatke o broju višednevnih i jednodnevnih putovanja i njihovim obilježjima jest putovanje stanovnika Hrvatske u dobi od 15 i više godina.

## Obuhvat

Okvir za izbor uzorka je imenik fiksnih i mobilnih telefonskih linija u Republici Hrvatskoj. U istraživanju se koristio stratificirani slučajni uzorak, stratificiran s obzirom na županiju i vrstu telefonske linije (fiksna ili mobilna). Ciljana populacija u istraživanju su stanovnici Republike Hrvatske u dobi od 15 i više godina koji žive u privatnim kućanstvima. Nije uključeno stanovništvo koje živi u institucijama (staračkim domovima, zatvorima i slično), državljanji Republike Hrvatske koji žive u inozemstvu i strani državljanji koji žive u Hrvatskoj. Ako se u uzorku radilo o fiksnoj telefonskoj liniji, ispitnik se u pripadajućem slučajno izabranom kućanstvu birao metodom rođendanskog ključa.

## Izvori i metode prikupljanja podataka

Podaci o turističkoj aktivnosti stanovništva Hrvatske u 2015. prikupljeni su putem telefonskog intervjuja uz podršku računala (CATI metoda) na reprezentativnom uzorku od ukupno 21 000 stanovnika Hrvatske u dobi od 15 i više godina.

Podaci su prikupljeni provođenjem četiri vala CATI istraživanja. Referentno razdoblje je tromjeseće. Putovanje mora završiti u referentnom razdoblju, a može započeti do 365 dana ranije.

Prvi val prikupljanja podataka proveden je u travnju 2015. i obuhvatio je turističku aktivnost stanovništva Hrvatske od siječnja do ožujka 2015. Drugi val proveden je u srpnju 2015. i obuhvatio je turističku aktivnost stanovništva Hrvatske od travnja do lipnja 2015. Treći val proveden je u listopadu 2015. obuhvaćajući turističku aktivnost stanovništva Hrvatske od srpnja do rujna 2015. Četvrti val proveden je u siječnju i veljači 2016. obuhvaćajući turističku aktivnost stanovništva Hrvatske od listopada do prosinca 2015. i u cijeloj 2015.

Obilježja putovanja prate se na razini najviše tri višednevna i najviše tri jednodnevna putovanja. Za pojedino putovanje prikupljaju se sljedeći podaci: vrsta putovanja (privatno ili poslovno putovanje), glavni razlog odlaska na putovanje, mjesec odlaska na putovanje, trajanje putovanja za višednevna putovanja (broj noćenja), država odredišta za putovanja u inozemstvo, tip odredišta (grad, more, unutrašnjost, planine, kružno putovanje, ostalo), organizacija putovanja (samostalno, posredstvom agencije), glavno prijevozno sredstvo, vrsta smještaja na višednevnim putovanjima, broj osoba za koju se iskazuju izdaci, izdaci na putovanju, struktura izdataka na višednevnim putovanjima.

Osim navedenih obilježja putovanja, prikupljaju se i podaci o sociodemografskom profilu populacije (spol, dob, stupanj obrazovanja, broj članova kućanstva, radni status, županija).

S obzirom na to da se podaci o turističkoj aktivnosti stanovništva Hrvatske odnose na svako pojedino tromjesečno razdoblje, spajanjem rezultata četiriju tromjesečnih razdoblja nije moguće procijeniti broj/udio osoba koje su u promatranoj godini bile, ili nisu bile, na putovanju. Procjena broja osoba koje su putovale izračunana je na osnovi 7 000 ispitnika anketiranih u posljednjem (četvrtom) valu anketiranja u kojem su obuhvaćena i putovanja tijekom cijele 2015.

## Confidentiality

According to the Official Statistical Act (NN, Nos 103/03, 75/09, 59/12 and 12/13 – consolidated text) and the EU Regulation No 223/2009 on European statistics, the confidentiality of all personal data on the household and its members given by respondents is guaranteed. The collected data are used solely for statistical purposes and they are published at the aggregate level.

## Observation units

The observation units for the number of persons who went on a trip are Croatian citizens aged 15 and over. The observation unit for data on the number of trips with overnight stays and same-day visits and their characteristics is a trip of a Croatian citizen aged 15 and over.

## Coverage

The basis for the sampling frame is a directory of fixed and mobile telephone lines in the Republic of Croatia. A random sample stratified according to the county and type of telephone line (fixed or mobile) was used in the survey. The target population for a survey are citizens of the Republic of Croatia aged 15 and over who live in private households, excluding population living in institutional households (homes for the elderly, prisons and the like), citizens of the Republic of Croatia living abroad and foreign citizens living in Croatia. In case of a fixed telephone line, a surveyed person was selected from a chosen household according to the birthday key method.

## Sources and methods of data collection

The data on tourist activity of the Croatian population in 2015 were gathered through telephone interviews with computer support (CATI method) on a representative sample of a total of 21 000 Croatian citizens aged 15 and over.

The data were gathered by carrying out four waves of CATI research. A quarter is taken as the reference period. A travel had to end within the reference period and could have started up to 365 days prior to its end.

The first round of gathering data was carried out in April 2015 and included the tourist activity of the population of the Republic of Croatia in the period from January to March 2015. The second round was carried out in July 2015 and included the tourist activity of the population of the Republic of Croatia in the period from April to June 2015. The third round was carried out in October 2015 and included the tourist activity of the population of the Republic of Croatia in the period from July to September 2015. The fourth round was carried out in January and February 2016 and included the tourist activity of the population of the Republic of Croatia in the period from October to December 2015 and in whole 2015.

The characteristics of trips are monitored on the level of three overnight stays and three same-day visits as the upper limit. The following data are gathered for each individual trip: type of trip (private, business/professional), the main reason for going on the trip, the month in which the person went on the trip, the duration of the trip with overnight stays (the number of nights), the destination country for trips abroad, type of destination (city, sea, inner regions, mountains, cruise, other), the organisation of the trip (self-organised, through an agency), the main transportation vehicle, the type of accommodation on trips with overnight stays, the number of persons for which expenditures are presented, the trip expenditures, the structure of expenditures on trips with overnight stays.

Except for the previously mentioned characteristics of trips, data are also gathered on the socio-demographic profile of the population (age, sex, level of education, number of persons in the household, status in employment, county).

Due to the fact that the data on tourist activity of the population of the Republic of Croatia refer to each individual quarterly period, merging the results of four quarterly periods does not allow for the assessment of the number/share of persons who went and who did not go on a trip in the observed year. The assessment of the number of persons who went on a trip was calculated on the basis of 7 000 surveyed persons who were surveyed in the last (fourth) survey wave in which the trips throughout the whole 2015 year were included.

U analizi točnosti procjena prikazana je procjena zbroja, koeficijent varijacije u postotku te 95% interval pouzdanosti za procjenu zbroja.

## Neodgovor

Stopa odbijanja je 50,9% svih prihvatljivih jedinica.

Najviše neodgovora prisutno je na pitanjima o izdacima za putovanje. Ovaj problem neodgovora ublažen je sekvencialnom hot-deck metodom imputacije.

Stopa imputacije: izdaci za prijevoz 20,4%, izdaci za smještaj 21,4%, izdaci za hranu i piće u ugostiteljskim objektima 15,0%, ostali izdaci 16,6%.

## Definicije

**Turizam** su aktivnosti osoba koje putuju i borave u mjestima izvan svoje uobičajene sredine, ne dulje od jedne godine, zbog odmora, posla ili drugih osobnih razloga, osim zapošljavanja kod poslovног subjekta sa sjediшtem u mjestu posjeta.

**Uobičajenu sredinu** (okruženje) neke osobe čini neposredna blizina doma i mjesto rada ili školovanja te ostala često posjećivana mjesta. Postoji samo jedna uobičajena sredina neke osobe. Uobičajenu sredinu određuju četiri kriterija: prelazak administrativne granice prebivališta, trajanje putovanja, učestalost odlaska na putovanja i razlog odlaska na putovanje.

**Prebivalište** je mjesto u kojem se osoba nastanila s namjerom da u njemu stalno živi.

**Nacionalni turizam** zemlje obuhvaća domaći turizam, tj. aktivnost stanovnika zemlje koji putuju i borave na mjestima unutar zemlje, ali izvan svog uobičajenog okruženja, i izlazni turizam, tj. aktivnost stanovnika zemlje koji putuju i borave na mjestima izvan granica zemlje i izvan svoga uobičajenog okruženja.

**Posjetitelj** je svaka osoba koja putuje u mjesto različito od svoga uobičajenog okruženja na vrijeme kraće od 12 mjeseci neprekidno i čija je glavna svrha putovanja različita od obavljanja određene aktivnosti koja se financira iz posjećenog mesta, pri čemu postaje turist ako provede barem jednu noć u smještajnom objektu. Posjetitelje čine turisti i jednodnevni posjetitelji.

**Turist** je svaka osoba koja u mjestu izvan svojeg prebivališta provede najmanje jednu noć u ugostiteljskome ili drugom objektu za smještaj turista radi odmora ili rekreacije, zdravlja, studija, sporta, religije, porodice, poslova, javnih misija ili skupova. U turiste se ne uključuju migranti, pogranični radnici, diplomati, članovi vojnih snaga na redovitim zadacima, prognanci i nomadi.

**Jednodnevni posjetitelj** je svaka osoba koja putuje u mjesto različito od svoga uobičajenog okruženja i ne provede noć u ugostiteljskome ili drugom objektu za smještaj i čija je glavna svrha putovanja različita od obavljanja određene aktivnosti koja se financira iz posjećenog mesta.

Prema kriteriju trajanja, putovanja mogu biti jednodnevna i višednevna.

**Jednodnevna putovanja** su putovanja na kojima se u odredištu provede minimalno tri sata.

**Višednevna putovanja** su putovanja na kojima je ostvareno barem jedno, a manje od 365 noćenja.

S obzirom na svrhu, putovanja mogu biti privatna i poslovna.

**Privatno putovanje** je putovanje čija je svrha odmor, rekreacija, kupnja, zdravlje, hodočašće, vjerski razlozi, posjet rodbini i prijateljima i slično. Privatna putovanja nisu: tjedne migracije ili odlazak na posao ili školovanje, sezonski rad, boravak u bolnicama ili lječilištima koji je plaćen preko socijalnog osiguranja, boravak u izbjeglištvu i azilu.

In the analysis of the accuracy of estimates, the sum estimate, coefficient of variation expressed in percentage and a 95% reliability interval used in the sum estimate are presented.

## Non-response rate

The non-response rate was 50.9% of all eligible units.

The highest non-response rate was recorded for questions regarding trip expenditures. This non-response problem was mitigated by applying a sequential hot-deck imputation method.

Imputation rates: transportation expenditures 20.4%, accommodation expenditures 21.4%, expenditures for food and drink in hotel and restaurant establishments 15.0%, other expenditures 16.6%.

## Definitions

**Tourism** means the activity of visitors taking a trip to a main destination outside their usual environment for less than a year, for leisure, business or other personal purpose other than to be employed by a resident entity in the place visited.

**Usual environment** of a person is immediate vicinity of the person's home and place of work or schooling, or other places that the person regularly visits. Each person has only one usual environment. The following criteria define a usual environment: crossing of the administrative borders of the distance from the place of usual residence; duration of a trip; the frequency of going on a trip; the purpose of a trip.

**Place of usual residence** is considered a place where a person came with an intention of permanent residence.

**National tourism** of a country encompasses national tourism, which includes activities of citizens of a particular country who travel and accommodate in places within that country but outside their usual environment, and outbound tourism, which includes the activities of citizens of a particular country who travel and accommodate in places outside the borders of that country and outside their usual environment.

**Visitor** is every person who travels to a place different from his/her usual environment for a period shorter than 12 months without interruption and whose main purpose of travelling differs from performing a particular activity financed by a resident entity in the place visited, providing that he/she spends at least one night in an accommodation establishment. Visitors include tourists and same-day visitors.

**Tourist** is every person who, outside his/her place of permanent residence, spends at least one night in a hotel or some other tourist accommodation establishment for reasons of rest, recreation, health, study, sport, religion, family, business, public tasks or meeting. Tourists exclude migrants, borderline workers, diplomats, military force members on their regular duties, displaced persons and nomads.

**Same-day visitor** is every person who travels to a place outside his/her usual environment, who does not spend a night in a hotel or some other tourist accommodation establishment and whose main purpose of travelling differs from performing a particular activity financed by a resident entity in the place visited.

According to the duration criterion, there are same-day visits and trips with overnight stays.

**Same-day visits** are trips on which a person spends at least three hours at a destination.

**Trips with overnight stays** are trips with at least one but less than 365 overnight stays realised.

As regards purpose, trips can be private and business/professional.

**Private trip** is a trip aiming at rest, recreation, shopping, health, pilgrimage, religious event, visit to relatives and friends, etc. Private trips do not include weekly migrations or departure for work or schooling, seasonal work, staying in hospitals or spas financed by social insurance contributions, staying in refugee camps and asylum.

**Poslovno putovanje** je putovanje čija je svrha posao ili profesionalni razlozi, ali ne i svakodnevna lokalna putovanja i poslovno motivirana putovanja u uobičajenoj sredini. U poslovna putovanja ulaze putovanja na kongrese, konferencije, poslovne sastanke, sajmove, izložbe, učenje jezika i ostala obrazovna putovanja, kulturna, sportska i slična putovanja, ali ne i poslovna putovanja koja su plaćena iz posjećenog mesta.

**Duljina boravka** za višednevno putovanje određuje se brojem provedenih noći u mjestu boravka. Razlikujemo kraća i dulja putovanja.

**Kraća putovanja** su putovanja na kojima turisti ostvare 1 – 3 noćenja.

**Dulja putovanja** su putovanja na kojima turisti ostvare 4 i više noćenja.

**Izdaci na putovanju** obuhvaćaju sve izdatke koje je posjetitelj imao za putovanje, a nastali su prije samog početka putovanja i za vrijeme putovanja. Navedene izdatke može načiniti i druga osoba u ime posjetitelja i na njegov trošak.

**Business/Professional trip** is a trip aiming at business or professional reasons excluding daily local trips or business-motivated trips in usual environment. Business/Professional trips include trips to congresses, conferences, business meetings, fairs, exhibitions, language learning and other educational trips, cultural, sports and similar trips. Trips financed by a resident entity in the place visited are excluded.

**Duration of a trip** with overnight stays is measured by nights spent at destination. There are shorter and longer trips.

**Shorter trips** are trips on which tourists realise 1 – 3 tourist nights.

**Longer trips** are trips on which tourists realise four or more tourist nights.

**Expenditures on tourism trips** include all travelling expenses that occurred before the beginning of the trip and during the trip. These expenditures may also be made by another person on behalf of the visitor or at the visitor's expense.
